

Welcome to Amgen By Your Side

Here to Support You Throughout Your Treatment Experience

Amgen By Your Side is a patient support program for people like you — people who have been prescribed ACTIMMUNE® (interferon gamma-1b). While your doctor will take care of all the medical details surrounding your new treatment, our team can provide other education, support, and resources.

After you have enrolled, we'll pair you with a dedicated Clinical Nurse Educator (CNE). Your CNE is your partner, committed to providing personalized support to help as you start and continue on treatment, as prescribed.

Our mission is to connect, coordinate, and champion YOU at the most important steps along the way:

CONNECT

You will be connected to one person dedicated to partner with you throughout your treatment experience

COORDINATE

You will receive support across areas from insurance and cost assistance options to coordinating appointments and more

CHAMPION

Your dedicated partner will strive to empower you—through education and resources—to be focused, motivated, and committed to maintaining your treatment goals

ACTIMMUNE[®]
(Interferon gamma-1b)

Meet Your Clinical Nurse Educator

The Amgen By Your Side team is led by a Clinical Nurse Educator (CNE). The CNE is a dedicated support partner who helps investigate, explain, and educate on the steps in your treatment experience. They are your partner to support and champion you while accomplishing your treatment goals.

The CNE can educate and assist you in:

- Learning about insurance coverage criteria and approval process
- Understanding cost assistance options
- Discussing what to expect at the start of treatment
- Determining how treatment, as prescribed, can fit into your routine
- Receiving reminders to help you stay on ACTIMMUNE® (interferon gamma-1b), as prescribed
- Discovering ways to connect with others, if interested (in-person gatherings, online/virtual meetings, and getting introduced to patient groups and mentors)
- Providing information about additional resources or advocacy groups
- Supplemental injection support

Once you're enrolled, you will get a welcome call from a Clinical Nurse Educator. After that, you can call, text, or email them when you have nonmedical questions.
